Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1- 3, 6-9, 12-22, 24-27, 30-55 are rejected under 35 U.S.C. 102(e) as being anticipated by Onken et al. (US 7,221,746 B1, hereinafter "Onken")

The applied reference has common inventors with the instant application. Based upon the earlier effective U.S. filing date of the reference, it constitutes prior art under 35 U.S.C. 102(e). This rejection under 35 U.S.C. 102(e) might be overcome either by a showing under 37 CFR 1.132 that any invention disclosed but not claimed in the reference was derived from the inventor of this application and is thus not the invention "by another," or by an appropriate showing under 37 CFR 1.131.

Regarding claims 1-3, 6-9, 12-22, 24-27, 30-55, Onken discloses a method (Figure 6A) of conveying information comprising the steps of:

collecting the information (steps 238-242) and encoding it (step 244),
using a single telephone line at the one station, transmitting (Figure 6C, step 314),
receiving the transmitted information (steps 318-320; col. 10, lines 38-54),

decoding and comparing (the condition is determined based on the pre-programmed telephone number called; col. 10, lines 54-57), and

informing (identifying means 180 indicates which condition corresponds with which remote location 12; col. 10, lines 54-62).

Regarding claims 15, 35-36, the waste disposal container is emptied in response to the identifying step (see Figure 6C, step 322).

Regarding claims 17-21, 37-39, 42, the power level of a first power source is measured (step 240 in Figure 6A).

Regarding claims 24, 40-42, 45, power level of a second power source is reported (step 264 in Figure 6B).

Regarding claims 30, 44, a battery is replaced or recharged in response to the identifying step (see Figure 6C, step 324).

Regarding claims 43, 49, 50, note sensing device 10 includes conventional detecting means 14 (col. 5, lines 20-34).

Regarding claim 52, the call is disconnected after the fourth ring (col. 14, lines 54-57).

Regarding claims 53-55, the originating telephone number is identified using a microprocessor 180 having a CALLER ID unit 182 (col. 3, lines 7-15; col. 10, lines 20-29).

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Durbin et al. (US 5,303,642) show a system for monitoring trash compactors.

Allowable Subject Matter

4. Claims 4-5, 10-11, 28-29 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Stella L. Woo whose telephone number is (571) 272-7512. The examiner can normally be reached on Monday-Friday, 8:00 a.m. to 4:30 p.m.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Curtis Kuntz can be reached on (571) 272-7499. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
